

GOWELL RUBBER INDUSTRIES

(AN IATF 16949:2016 CERTIFIED COMPANY)

WELCOME TO GOWELL RUBBER INDUSTRIES

Gowell Rubber Industries was established in 1981, as a small manufacturing unit by its founder Mr. V.K. Hans. As the leading manufacturer of rubber components for automobile Industries, GRI has been pioneering development, production and marketing of modern manufacturing systems for a variety of applications for over four decades.

Gowell Rubber Industries has emerged as a leading manufacturer of Rubber Products. The R&D team at the company today is geared to leverage its technological expertise to develop new product lines for the Industry. The key to our market success is our local presence and high flexibility - the result of decentralized, transparent corporate structures, internationally coordinated development and manufacturing operations. As a forward-looking company we rely on the innovative skills and commitment of our workforce to retain our lead in the development of state-of-the-art technologies for automobile Industry.

There has been a major diversification in the product portfolio which has expanded to include all rubber parts - be it natural rubber or synthetic rubber - like Nitrile, EPDM, Butyl, Neoprene, ACM, CSM, Silicone and FKM rubber .

MAJOR CUSTOMER

PRODUCT CATEGORY

Two Wheeler's Boots for Side Mirror

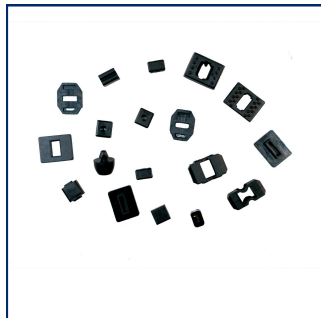

Gasket & Seals for fuel Tank Cap

Urea Sensor Parts for Commercial Vehicle

Parts Used in Construction Equipments

Four Wheels's Door Stoppers & Cushions

Rubber to Metal Bonded Parts for different Application

Rubber Pads for Shock Absorber Application

Two Wheeler's Fuel Tank Cap Seals

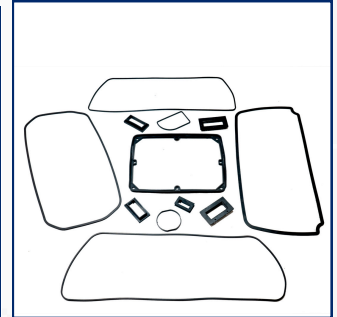

O Rings

Grommets & Key Fob Gaskets

Diaphragm & Seal Breathers for Fuel Tank Application

Instrument Cluster Gaskets

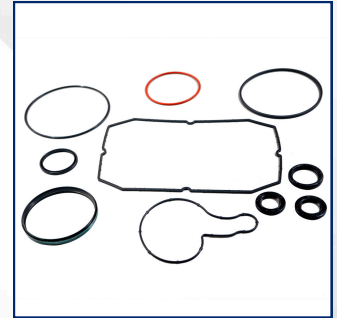

Brake Part for Two Wheeler's

Dust Boots for Two Wheeler & Four Wheeler

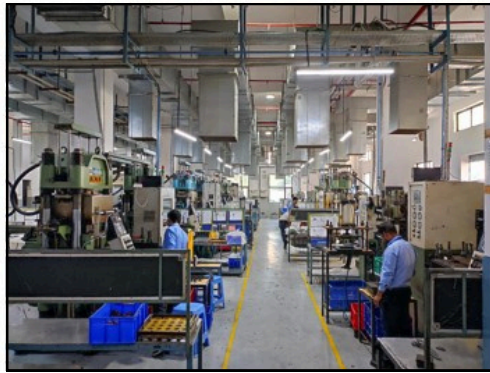

Grommet, Bushes, Stoppers & Seals of Shock Absorbers

Seals for Water Pump, MCU, Fuel Pump & Brake Drum Application

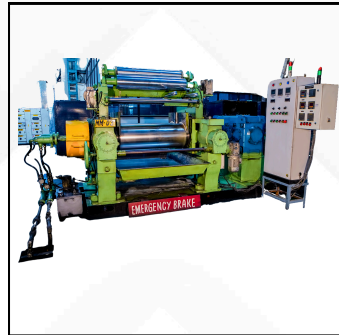

GLIMPSE OF PLANT

RUBBER COMPOUNDING FACILITY

Kneader Equipped with Auto Dispensing of Carbon, Filler and Oil

Mixing Mill with Stock Blender

Batch Off Machine

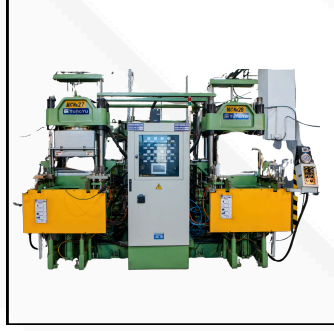

Semi-Automatic Chemical Weighing Machine

PRODUCTION FACILITY

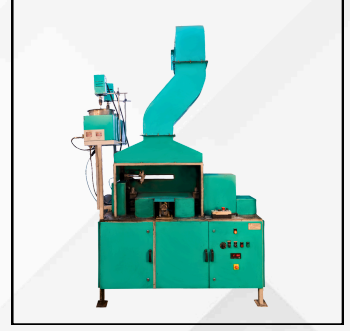

Injection Moulding

Vacuum Compression Moulding

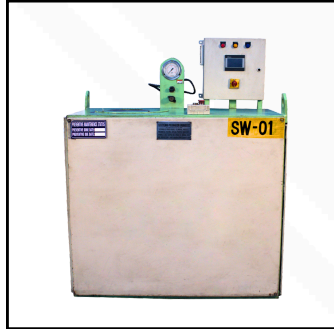

Grit Blasting Machine

Adhesive Spray Coating Machine

Cryogenic Deflashing Machine

Swaging Machine

Hydro Pneumatic SPM

Preformer Machine

INSPECTION & TESTING FACILITY

Video Measuring Machine

Profile Projector

Rheometer

Mooney Viscometer

Tensile Testing Machine

Automatic Vision Inspection Machine

Ozone Chamber

Endurance Testing Machine

Dust Seal/ Bump Stopper Endurance Testing Machine

Oven

PLANT 1:

Plot No. 6, 7 and 9 to 12, Block-N, Sector-57, Faridabad Industrial Town, Faridabad-121004 Haryana, India

PLANT 2:

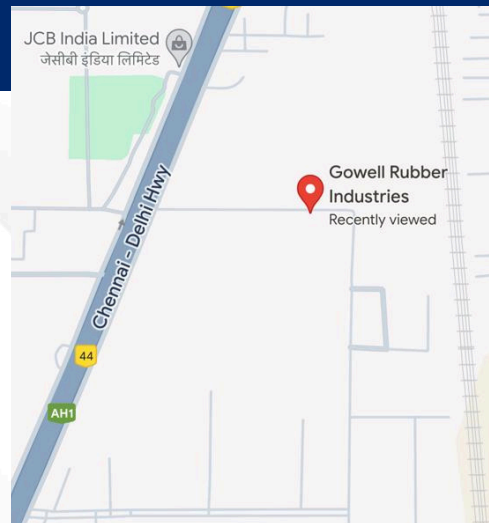

B-4, Sector-59, Industrial Area, Opposite JCB, Ballabgarh, Faridabad - 121004, Haryana, India

Gowell Rubber Industries
